

## **Basic Crystal Class**

*Ages Late Elementary and up*

There are so many different crystals that it is impossible to cover all of them in this class. We will cover crystals in this class that a child could find or afford easily. Topics are as basic as it gets, if there is interest, I might do another more intense class later. Younger children would only need to cover the colors while older children could learn the individual crystals presented. The meanings listed in the class are the most common and a good place for kids to start; as they go on their own crystal journey in life they may add, delete, or make more complex the meanings that they find here.

Supplies: Crystals are needed for the class, if buying or finding them locally do not do it in advance the class instruction will help. Class requires at least 4 and no more than 9 crystals.

As with all things Pagan please read assignments in advance to make sure your beliefs follow the line of thought presented. Feel free to add, take out, or change anything to make lessons fit your family better.

### **Basic Crystals**

#### **Wk 1 (Red/Pink) Picking Crystals**
