

## Late Elementary Pagan Spelling Course

This spelling course is designed for 15 weeks using 5 Pagan spelling words per week. These words can be used as a stand-alone program or to be added to spelling words that your child is working on already. It is recommended that you have no more than 12 spelling words total each week.

A lesson has been provided for each week to help your child in the subject of spelling. Words have not been chosen for you in advance so you can tailor to the age/stage of your child. Definitions are given so your child understands each word, feel free to alter them as you feel necessary.
